To Whom It May Concern:

I am happy to have the opportunity to recommend the translation services of the Translations Chamber UK of Bristol, England.

Angelika is our contact there, and she has always been cheerful, accurate and timely with our translation requirements.

Sennheiser Government Systems is the U.S. based defence product development and marketing division of the German headquartered Sennheiser Electronic GmbH and Co, KG. As such, we are in occasional need of having technical documents translated from German to English, and Angelika has been a valuable resource in this regard.

If I may be of more specific assistance to you in this regard, please don't hesitate to contact me.

Regards,

Dave Dunlap

Vice President / General Manager

Sennheiser Government Systems
